

Press Release

Neurocon 2023: Unveiling the Next Frontiers in Neuroscience Research

Online, October 27-28, 2023*

Neurocon 2023, organized by the Mindlifeline Association, is set to deliver an exceptional event dedicated to the profound exploration of neuroscience, neurobiology, and neuropsychology for the scientific community. The event will take place online, and to participate, we invite you to register at www.neurocon.eu.

A highlight of the event will be the presence of Professor Karl Friston from the University College of London, one of the most influential researchers in the field of neuroscience. Alongside him, the list of speakers includes esteemed names such as Professor Claudio Babiloni from Sapienza University of Rome, Professor Illana Gozes, Ph.D. from Tel Aviv University, and many others.

The central theme of the conference will be Alzheimer's Disease, and participants will have the privilege to explore new methods of identifying this condition and become acquainted with innovative analyses of the early stages of the disease.

The event will feature two discussion panels, each addressing the unique perspective of neuroscience research. The first day will be moderated by Cristiana Dimulescu, Ph.D. Candidate from Technische Universität Berlin, specialized in advanced neuroscience research. The second day will be dedicated to discussions related to Alzheimer's disease and neurobiology, guided by Prof. Maria Theresa Fiorenza from Sapienza University of Rome.

For more information and registration details, we invite you to visit www.neurocon.eu.

About the Organizer:

The Mindlifeline Association is a non-profit entity dedicated to promoting knowledge and understanding of the human brain and mental processes. Our mission is to facilitate collaboration among researchers, professionals, and enthusiasts in the field of neuroscience.

Speakers:

- Prof Karl Friston from University College Of London
- Prof Claudio Babiloni from Sapienza University of Rome
- Prof Illana Gozes, Ph.D. from Tel Aviv University
- Prof. Fabrizio Dorichi from Sapienza University of Rome
- Prof Agenor Limon from University of Texas

- Prof Maria Theresa Fiorenza from Sapienza University of Rome
- Gary Waanders, PhD MBA, from AC Immune SA
- Prof. Gesa Hartwigsen from Max Planck Institute for Human Cognitive and Brain Sciences
- Dr. Christoph Metzner from Technische Universität Berlin
- Prof Thomas Nowotny from Sussex University
- Dr. Shabnam Kadir from University of Hertfordshire
- Justine Moonen, PhD. from Amsterdam Alzheimer Center
- Julia Belger, Ph.D. Candidate

Partners of the Event:

- FuturePsy - Community of Psychology Students
- SSMB, Bucharest Society of Medical Students
- Cognosis, Federation of Associations of Students in Psychology and Education Sciences in Romania
- ASB, Association of Biology Students
- Politehnica University
- Faculty of Automatics and Computers
- Philos, Association of Philosophy Students
- Emerald
- Souilver
- Psychologies.
